Scope:

Every year the Pushchino Research Center holds the International School-Conference of Young Scientists „BIOLOGY - SCIENCE OF XXI CENTURY“.

At this conference, young scientists, students, and graduate students present results of their research work. For 2014 the organizers decided to implant a **German Session** within the event to give **PHD-STUDENTS AND POST-DOCS** the opportunity to present their work supplemented by overview lectures by senior scientists.

Applications from the following fields are welcome:

- Biotechnology (biotech)
- Microbiology and virology (microbio)
- Soil science and agroecology (soil)
- Animal physiology and biomedicine (biomed)
- Biophysics and radiobiology (biophys)
- Molecular biology (molbiol)

Application:

For application please fill in the online formula at www.pushchino2014.owwz.de

For the compensation of travel- and accommodation costs the organizers will apply for funding.

Deadline for Application **01 February 2014**

Notification of acceptance **07 February 2014**
